

Sticker Template : 210 x 148mm Rectangle

The diagram shows a large rectangle representing the sticker template. It has three distinct boundaries: an outermost solid blue line representing the total dimensions (210x148mm), an inner solid magenta line representing the trim line (150x100mm), and a dashed green line representing the safe area (146x96mm). The space between the blue and magenta lines is the bleed area (2mm on each side). The space between the magenta and green lines is the internal bleed area.

Trim : 150x100mm
Bleed : 154x104mm (2mm on each side of trim line)
Safe Area : 146x96mm (internal bleed)

Trim

This line is where we aim to cut (actual cutting line).

Bleed

2mm bleed is required for the printing process.

Please make sure background needs to extend into the bleed area, the bleed ensures unprinted white edges after trimming.

Safe Area

Please make sure all important information and graphics are contained in this box otherwise you risk losing it.
